The land drawing has been closed and the vast area of irrigated property is now open to the general public. While the crowd at the drawing Monday was not so large as had been hoped for, it was of sufficient size to demonstrate to the Sevier company that the people of the state, especially, are interested. Traffic is Direct Violation of Railroads Must Spend Big Sums in Equipment to Avoid Blockades.

SUSPECT CIGAR STORES HILL GIVES HIS OPINION

Will Spend Big Sums.

It has been known for some time past that proprietors of certain cigar stores in this city have been engaging in buying and selling railroad tickets to all points, and they have finally become so bold in their operations that they no longer make a secret of it, but have formed the habit of advertising the reduced rate tickets in the daily newspapers.

Aside from the statutes which prohibit the dealing in railroad transportation at lower figures than the regular rate, the point is very fully covered by the interstate commerce commission's rulings, and unless the operations are ceased in this city prosecutions will follow. It was stated last night by a railroad attorney that no steps have as yet been taken against the ticket scalpers, but that some action might reasonably be expected if the practice continues.

Will Spend Big Sums.

A vast amount of money will be spent in 1910 by the railroads centering in Salt Lake and adjacent territory. The Oregon Short Line has placed orders for equipment for fall delivery totaling several millions of dollars; the Western Pacific, which is about to inaugurate passenger service between this city and San Francisco, will expend millions for passenger equipment, much of which is beginning to arrive; the Gould roads—the Denver & Rio Grande and the Western Pacific will spend several hundred thousand on the new terminal station now fast nearing completion in this city; the Salt Lake Route will have a big item of expense in reopening its line to traffic, and the Southern Pacific and Salt Lake Route will spend several millions in repairing their roadbeds, as the result of disastrous losses sustained during the early part of the year.

Spend Money.

Steel rails, improved terminals, straightening and improving roadbeds, etc., or even for passenger cars. These items, railway men state, they are unable to compute.

That the railroads are facing an important problem—the getting of more of the week the Sevier River Land & money, and that they may have to increase rates to get it, was the substance of a recent statement made by James J.

Good Advice Regarding the Prevention of Coughs and

Colds.

If people would only fortify and strengthen the system, the majority of cases of coughs, colds and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

Ticket scalpers are again plying their filegal vocation in Salt Lake. There have been evidences of private transactions in railroad transportation at reduced rates for some weeks past, but a point has been reached where, officials of the directent railroads state, they propose to take some action. The selling of railroad tickets at a rate lower than the published tariff is in direct violation of the interstate commerce law, and is punishable by a heavy penalty.
